Dear Chairman Harris and Ranking Member Bishop,

I am requesting funding for the Justin Police Station Reconstruction in Fiscal Year 2027. The entity to receive funding for this project is the City of Justin, Texas. Funding for this project would allow the city to rebuild the existing facility at the same location. The rebuild will bring the structure into compliance with modern building and safety codes, and create a properly designed police workspace that supports efficient operations and evidence management. These improvements will ensure the Justin Police Department can continue to provide reliable public safety services while maintaining professional standards for evidence handling, officer safety, and public interaction. Investment in this project represents a responsible use of federal funds by addressing critical deficiencies in an existing public safety facility before they result in more costly repairs or operational risks. The project has a federal nexus because it is authorized under section 306 of the Consolidated Farm and Rural Development Act, 7 U.S. Code section 1926(a).

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Brandon Gill
Member of Congress
