The Honorable Tom Cole
Chairman
House Committee on Appropriations
H-307 The Capitol
Washington, D.C. 20515

The Honorable Rosa DeLauro
Ranking Member
House Committee on Appropriations
H-307 The Capitol
Washington, D.C. 20515

Dear Chairman Cole and Ranking Member DeLauro,

I am requesting funding for Stewart Creek Wastewater Treatment Plant Expansion Phase 2B – Operations Building. The entity to receive funding in Fiscal Year 2027 would be the City of the Colony, Texas. As the City’s only means of treating wastewater, Stewart Creek WWTP is critical to protecting the environment and public health. The building will also include dedicated shower/changing/restroom spaces for men and women to meet the needs of the diverse staff. This project has a positive impact on the 26th District of Texas because the discharge flows directly into Lake Lewisville, which is an extremely popular recreation Lake in the region. Equipping the operations staff at the plant with adequate working space and amenities will improve their ability to effectively operate the plant and respond to issues to protect the water quality entering the lake. The expansion is a good use of tax dollars and will help the community by providing a place to host educational tours, public meetings, receive deliveries and shipments, and conduct other interactions with citizens without exposing them to the risks and hazards of meeting inside an operating filter control room. The project has a Federal Nexus because the funding is provided for purposes authorized under **Title VI of the Clean Water Act (33 U.S. Code §1381–1387)**.

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Brandon Gill
Member of Congress
